Note to Max:

Max, I'm passing this one your way, as you're side of the street is more involved. The method claim 7 is just as comprehensive as the apparatus claims, so it will probably control. (I can't speak to the last method claim, as it's probably a testing claim for somewhere – good luck with that one.)

If you disagree as a SPE over there (rather than a panel member), then take it to the 215 folks and I'll mediate if you need a tie-breaker.
